

## Richmond *Empower* Urology & Proctology Associates

---

Dear

We're contacting you today per our conversation last Tuesday. As discussed, it is of *vital* importance to your health that you schedule a near term appointment for the emergency procedure we reviewed.

Separately, we apologize for the shock of this ordeal. Nurse Jackie sends her regards and would like to convey that it's fairly normal for candidates to faint while going over the graphic nature of this technique and you should *not* be embarrassed.

Please come in as soon as possible.

With Kind Concern,

Doctor Daly
